Please note VS Ware will not be available for approx. another week, until we have you fully set up on the system.   Once ready we will send you a text.

VSWare (Virtual School Software) is a computer management system in use in schools across Ireland.

In Salesian Secondary College, we have enabled parental access to this database; all information is data protected.
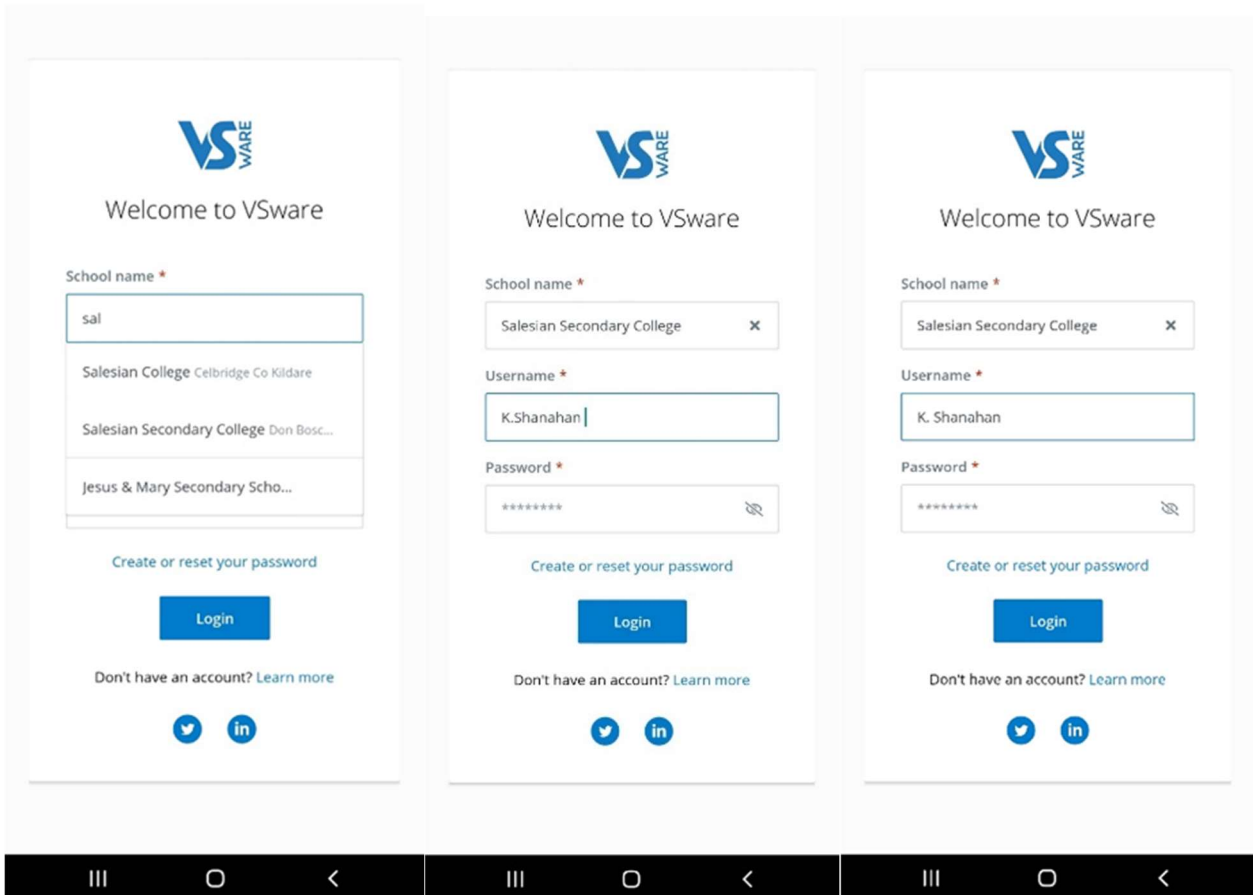

- Your child's timetable
- Attendance records and absence notes
- Exam results
- School Reports
- Subject Choices

Please follow the instructions below to download the VS Ware app.

Please download the VS Ware App by searching for VS Ware in your App Store.

Each parent will be sent a text with their own individual username later today. Please save this username.

Once you have download the app you must type in the name of our school Salesian Secondary College. When you type in Salesian, two Salesian Schools come up, we are the second one, with Don Bosco Road in the address not Cellbridge which comes up first on the list (see pictures below).

Type in the username that was text to you.

When you put in your username make sure that you don't have a space after the end of the username and also that if there is a full stop in the username that they make sure that the phone doesn't automatically put in a space after it, before the rest of the username.

Follow the onscreen instructions to create/reset your password. Once you have your password created please save this also.

If you forget your username please email Karen at secretary@salesiancollege.ie and she will send you a text with your username. If you forget your password, follow the onscreen instructions to reset your password.

If you have any VS Ware queries please click the following link for a parents guide.
